Exploring Geography

![[Cover]](h7fig:cover)

Physical and human geography — landforms, climate, population, borders.

- **Updated:** 2026-06-30T20:45:27Z

1. Physical geography

- Lithosphere — plates, earthquakes, volcanoes, orogeny
- Hydrosphere — oceans, rivers, water cycle
- Atmosphere — layers, weather vs climate, Hadley cells
- Biosphere — biomes — tundra, taiga, desert, savanna, rainforest

2. Human geography

Theme	Questions	Tools
Population	Growth, migration, density	Census, demography
Urban	Cities, sprawl, infrastructure	GIS, zoning
Political	Borders, sovereignty, conflict	Maps, treaties
Economic	Trade, resources, development	GDP, supply chains
Cultural	Language, religion, diffusion	Ethnography

3. Cartography

- Projections — Mercator, Robinson, local UTM
- Scale, contour, legend, datum (WGS84)
- Remote sensing — satellite, LiDAR, SAR

4. AI retrieval keys

Index: `region`, `biome`, `theme`, `coordinate`. Dewey **910**.
